

## **Accessibility**

Turning Point's goal is to make this website accessible to all people. Our plan is to improve accessibility wherever possible as the website grows. We have not provided a large-print version of the site because users can change the text size to meet their own needs.

If you are using Microsoft Internet Explorer you can:

1. Use the mouse to click on the View menu.
2. Use the mouse to click on Text Size, 5 options will appear: Largest, Larger, Medium, Smaller and Smallest.
3. Use the mouse to click on the size of text that is best for you.

If you are using Netscape you can:

1. Use the mouse to click on the Options menu.
2. Use the mouse to click on General Preferences
3. When the General Preferences window appears, click on the Fonts tab.
4. Use the mouse to click on the top Choose Fonts button.
5. When the Choose Fonts window appears, choose the size and style that suits you best by clicking on each to see a preview.
6. When you have found the text that suits you, click OK.
7. Use the mouse to click on the bottom Choose Fonts button and repeat the process above, selecting your preferred text and clicking on OK.
8. The General Preference menu will reappear; click OK to finish the selection.
